

PROVEN MAINTENANCE-FREE AIR CURTAINS

NHS Air Curtains

DESIGNED FOR USE IN SHOPS
AND PUBLIC ENTRANCES

Air curtains with an air intake grill or filter need to be cleaned at least once every four weeks. This is time intensive for the user and it generates high annual costs. Without cleaning, the air curtains does not operate to best effect, energy consumption goes up and defects could occur.

Our air curtains have high-grade Class A components that need to be inspected by the fitter just once every six months. As user you don't have to worry about the air curtain!

Benefits for the user:

- ✓ No maintenance of air intake grills
- ✓ Reduced energy loss
- ✓ Less chance of faults
- ✓ Longer lifespan
- ✓ No nuisance during opening hours
- ✓ Increased safety and comfort

Calculation example:

Wage: € 19,-
(20 minutes @ € 57,- per hour)

Cleaning: € 247,-
(Based on 13x per year)

Total costs*: € 3.705,-
(For a lifespan of 15 years)

* This only concerns cleaning the air intake grill or filter, excludes call-out charges and costs outside the six-monthly inspection. When the user cleans the air intake grill or filter himself, total costs amount to € 1.950,-.
